

Sustainability is First and Foremost at Leon County's Eastside Branch Library

At Eastside Branch Library, 1583 Pedrick Road, citizens can access books and media in a facility that also demonstrates exemplary sustainable building and site development practices. This County facility was constructed to meet standards for gold certification for the US Green Building Council's Leadership in Energy and Environmental Design (LEED) program. Features include:

- A photovoltaic solar array
- Smart lighting to maximize natural daylight
- State-of-the-art on-site stormwater collection
- Recycled and regional construction materials
- A non-irrigated, native plant landscape

To learn more about the details, please view the 5 videos that tell the story of the sustainability taking shape at this library, including a timelapse video showing construction.
